Series BJ 04000-4999: A picture showing a set of plates belongs to series **BR** (as you can see), which is on the following page. As a consequence the serial number matches well – still, it is important to remember that the deviations among serial numbers sometimes are very large.

Page 121:

Series ED 0000-0365 should be **ED 0000-0999**. The quantity of cars is 1000 as indicated.
